## OFFICIAL COMUNICACION

Dear colleagues and friends,

Unfortunately, due to the current situation caused by the COVID-19 epidemic and following the recommendations of state and local health department instructions, we find ourselves forced to cancel our XV International Congress of Swine Reproduction, Dr. Santiago Martín Rillo, which was to be held in Valencia (Spain) on the 25th and 26th March 2020.

We have worked hard and with pride to prepare this Congress, but the health of the attendees is our outmost priority. We hope that the newly instated measures help control the propagation of the virus.

We lament any inconvenience that this may have caused you.

Sincerely,

---
